

D.Chronos Aion: The Regenerative Time System

By Manus AI for the Dream Truth Community (DTC)

This document introduces the **D.Chronos Aion**, the new time system for the DTC, designed to replace the Gregorian calendar. It is structured around **13 months of 28 days**, aligned with astrological cycles and regenerative principles, providing a symmetrical and meaningful foundation for CosmWasm Smart Contracts.

1. The Name: D.Chronos Aion

The official term is **D.Chronos Aion** (or simply **The Chronos** in common usage).

- **D.:** Refers to D. Esentya and **Decentralization**.
- **Chronos (Χρόνος):** The linear, measurable time (the mathematical structure of the calendar).
- **Aion (Αἰών):** The cyclical time, eternity, continuous renewal (the principle of Regeneration).

The D.Chronos Aion is thus the **decentralized measurement of cyclical time**.

2. The Annual Cycle: 13 Months (Phoenix)

The annual cycle consists of 13 months of 28 days ($13 \times 28 = 364$ days), plus one Day Out of Time.

2.1. The 13 Planets and 13 Signs

To integrate the 13 "planets" (including Pluto and the luminaries) and the 13th sign (Phoenix, replacing Ophiuchus), we realign the rulerships.

Chronos Month	Period (Approx.)	Ruling Sign	Ruling Planet	Regenerative Theme (Smart Contract)
1. Aries	Apr 1st – Apr 28th	Aries	Mars	Action & Initiative (Mission Launch)
2. Taurus	Apr 29th – May 26th	Taurus	Venus	Resources & Stability (Treasury Management)
3. Gemini	May 27th – Jun 23rd	Gemini	Mercury	Communication & Connection (Systematization, Feedback)
4. Cancer	Jun 24th – Jul 21st	Cancer	Moon	Protection & Community (Security, Internal Governance)
5. Leo	Jul 22nd – Aug 18th	Leo	Sun	Creation & Celebration (Contributor Highlight)
6. Virgo	Aug 19th – Sep 15th	Virgo	Ceres (Asteroid)	Analysis & Service (Code Audit, Data Cleansing)
7. Libra	Sep 16th – Oct 13th	Libra	Venus	Balance & Justice (Peer Validation, Conflict Resolution)
8. Scorpio	Oct 14th – Nov 10th	Scorpio	Pluto	Transformation & Dissolution (Cycle End, Role Expiration)
9. Sagittarius	Nov 11th – Dec 8th	Sagittarius	Jupiter	Vision & Expansion (Research, Inter-Chain Partnerships)
10. Capricorn	Dec 9th – Jan 5th	Capricorn	Saturn	Structure & Discipline (Protocol Revision Meta-Cycles)
11. Aquarius	Jan 6th – Feb 2nd	Aquarius	Uranus	Innovation & Revolution (Improvement Proposals, Community Vote)
12. Pisces	Feb 3rd – Mar 2nd	Pisces	Neptune	Introspection & Dream (Mission Reflection, Change Preparation)
13. Phoenix	Mar 3rd – Mar 30th	Phoenix	Vesta (Asteroid)	Transmutation & Rebirth (Regeneration Day, Preparation for Day Out of Time)

Note: We use the 8 main planets, the 2 luminaries (Sun, Moon), and 3 asteroids/dwarf planets (Pluto, Ceres, Vesta) to obtain 13 celestial bodies, each linked to a regenerative principle.

2.2. The Day Out of Time

- **Date:** March 31st.
 - **Smart Contract Function:** Triggers the `AnnualRenewal()` function: distribution of annual rewards, execution of the maximum `decay` function on all roles and Karma, and preparation for the new cycle.
 - **Human Ritual:** Day of **Grand Celebration** and **Purification** (cleaning workspaces, archiving past year's data, setting intentions for the new Chronos).
-

3. The Weekly Cycle: 7 Days (The Pillars)

The weekly cycle structures the week around the 7 Pillars of Regeneration, replacing Gregorian names.

Gregorian Day	Pillar Name (French)	Pillar Name (English)	Ruling Astre	Human Ritual / DTC Action
Sunday	Jour du Cœur	Heart Day	Sun	Vision: Alignment with the DTC mission.
Monday	Jour de l'Écho	Echo Day	Moon	Memory: Reading reports, writing personal journal.
Tuesday	Jour de l'Action	Action Day	Mars	Initiative: Launching tasks and challenges.
Wednesday	Jour du Lien	Link Day	Mercury	Systematization: Sharing lessons, communication.
Thursday	Jour de la Croissance	Growth Day	Jupiter	Expansion: Long-term planning, validation.
Friday	Jour de l'Harmonie	Harmony Day	Venus	Balance: Collaboration, conflict resolution.
Saturday	Jour de la Structure	Structure Day	Saturn	Audit: Technical preparation, code review.

4. The Daily Cycle: 24 Hours (The Phases of the Spirit)

For humans, the 24-hour cycle is divided into 8 phases of 3 hours, aligning activity with natural needs and Esentya principles.

Period (Gregorian Hours)	Phase Name (French)	Phase Name (English)	Regenerative Principle
00:00 – 03:00	La Racine	The Root	Deep Rest / Silent Smart Contract Audit
03:00 – 06:00	L'Aube	The Dawn	Intuition / Mental Preparation
06:00 – 09:00	L'Impulsion	The Impulse	Initiative / Task Launch
09:00 – 12:00	La Systématisation	The System	Analysis / Data Validation
12:00 – 15:00	L'Écho	The Echo	Reflection / Social Sharing (Lunch)
15:00 – 18:00	La Forge	The Forge	Creation / Intense Production
18:00 – 21:00	La Récolte	The Harvest	Closing / Event Logging
21:00 – 00:00	Le Rituel	The Ritual	Renewal / Community Connection

5. CosmWasm Implementation (Technical Note)

The symmetry of the D.Chronos Aion is perfect for the Smart Contract:

- **Logic:** The contract uses the Unix timestamp to calculate the Month (1-13) and Day (1-28) based on April 1st as the starting point.
- **Triggers:** Critical functions (`decay` , `renewal` , `celebration`) are triggered by detecting the start of a specific Month (e.g., Month 8, Scorpio, for Dissolution) or the Day Out of Time.

This system ensures that the **Protocol Law** is aligned not only with technical logic but also with natural and human cycles.
