

Salut Monkey! Parfait, un appel aux armes pour les artisans du numérique. On va parler à ceux qui façonnent l'âme des réseaux et tissent les liens de la tribu. Même ton, même humour, même ambition.

The Dream Truth Community (DTC) is Recruiting Social & Web3 Wizards!

(Because memes don't make themselves, and someone has to explain Soulbound NFTs to your aunt.)

Let's be clear: DTC is not a "community manager" gig. It's **building the digital nervous system of a living organism**. We need poets of pixels, diplomats of Discord, and alchemists of attention. If you think "viral" is more than a disease and "engagement" is more than a ring, you might be one of us.

Ready to trade likes for legacy? Let's go.

1. Web3 Community Architect & Onboarding Shaman

Your Mission (if you're not already lost in 15 Discord servers):

- **Tribal Catalyst:** You don't just "moderate" — you **ignite**. Turn newcomers into crewmates, tourists into pilgrims. Your voice sets the vibe in Telegram, Discord, and the secret gardens of our DePIN.
- **Ritual Designer:** Create onboarding quests, initiations, and lore-drops that make people feel they've finally **come home**. Yes, we have a *Karma Police Squad*. No, it's not a fan club.
- **Bridge Builder:** Translate "CosmWasm" into campfire stories. Explain why burning tokens is beautiful. Make the tech feel human, and the humans feel like pioneers.
- **Ecosystem Ambassador:** You're the face (or pseudonym) of DTC in other DAOs, on Twitter Spaces, in the metaverse. You don't shill — you **vibrate**.

MVP Compensation: Paid in **D.Flow

**, *our token that transmutes FIAT into pure D.Worth*. Your value = your verifiable impact on community health & growth. No bots, no empty chats — just real resonance.

PROD Compensation (when the tribe becomes a nation): **€80,000 – €130,000/year** (or crypto equivalent). Because without a soul, we're just code.

2. Memetic Engineer & Narrative Alchemist

Your Mission (because “brand identity” is for cowards):

- **Virus Crafter:** You don't make posts — you craft **cultural seeds**. Memes, threads, manifestos, cryptic ARGs — everything that makes people say, “*What is this... and why do I need it?*”
- **Lore Weaver:** Expand the **Laboon Archives**, the **White Mirror** saga, the tales of Dreamaster & Truthmaster. Turn our 64 layers into stories that stick to the brain like a good chorus.
- **Tone Guardian:** Keep our voice **Frenchly poetic yet globally punchy**. Witty, profound, never corporate. You speak the language of pirates, jedis, and quantum gardeners.
- **Echo Strategist:** You understand attention flows, platform algorithms, and the dark arts of virality. But you use them for **Dharma**, not dopamine.

MVP Compensation: Paid in **D.Flow\$**. Your value = cultural penetration. If it doesn't spark joy or curiosity, it's not yours. **PROD Compensation:** **€70,000 – €120,000/year**. Because memes are the mythology of the internet, and we're writing a new bible.

3. Web3 Growth Hacker & Partnership Pirate

Your Mission (if you think “airdrops” are tactical, not charitable):

- **Alliance Forger:** Seek out other DAOs, regenerative projects, artists, and builders who resonate with our frequency. Forge partnerships, not transactions.

- **Tokenomics Storyteller:** Explain why *D.Worth* *
*is indexed to real value, why * ***Nasi Goreng** is edible economics, and why
burning FIAT is a spiritual act. Make economics sexy again.
- **Quest Designer:** Launch collaborative campaigns, cross-DAO treasure hunts,
and co-creation rituals that bring new blood into the ecosystem. You map the
connections before they exist.
- **KPI Shaman:** Track not just followers, but **vibrational matches**. Conversions to
Cool School, engagement with Holocrons, pledges to the Dream Truth Testament.

MVP Compensation: Paid in **D.Flow\$**. Your value = quality alliances and activated contributors. **PROD Compensation: €90,000 – €140,000/year**. Because growth without soul is just a pyramid scheme.

4. Regenerative Media Producer & Dharma Journalist

Your Mission (because DT JT isn't a news channel — it's a truth beacon):

- **Content Surgeon:** Produce videos, podcasts, articles, and live streams that dissect the old world and autopsy the new. Style: between “**Yes Theory**” and “**Dark Mirror**” with a French twist.
- **Investigative Poet:** Dig into the stories of “losers” forgotten by history (D.Ohara Tree's Memory Center), cover the **Karma Police actions**, document the **Great Treasure Hunt**.
- **Format Innovator:** Experiment with interactive documentaries, immersive reports, and participatory storytelling. The medium must reflect the message: decentralized, layered, alive.
- **Ethical Voice:** You practice **Ahimsa** (non-harm) and **Satya** (truth) in every frame, every word. No sensationalism, just depth.

MVP Compensation: Paid in **D.Flow\$**. Your value = impact, not impressions. **PROD Compensation: €75,000 – €125,000/year**. Because the revolution will be televised... but on our own terms.

5. UX Writer & Microcopy Magician ✨

Your Mission (because buttons have souls too):

- **Interface Whisperer:** Write every button, error message, onboarding tooltip, and notification in the DTC ecosystem. Your words guide, reassure, and sometimes amuse.
- **Tone in Tiny Spaces:** Pack personality into three words. Make “Connect Wallet” feel like an invitation, not a tax form.
- **Onboarding Bard:** Craft the journey from first click to Eternal Sadhaka. Your copy is the gentle hand that leads users through complexity without them even noticing.
- **Brand Lexicon Guardian:** Invent and maintain our vocabulary. “Dharma Pulse”, “Klesha Healing”, “Aparigraha Burn” — you make these terms feel intuitive, almost familiar.

MVP Compensation: Paid in **D.Flow\$**. Your value = reduced friction, increased delight. **PROD Compensation: €65,000 – €110,000/year**. Because good words are the oil in the machine.

6. Event Weaver & IRL/URL Experience Designer 🏰

Your Mission (because vibes don't happen by accident):

- **Ritual Architect:** Design and produce DTC events — from online **Viral Blasts** to real-world **Dharma gatherings**. Each event is a chapter in our story.
- **Quantum Tourism Pioneer:** Work with **D.T. Tourism Agency** to create regenerative quests, pilgrimages to nodes of the network, ceremonies on summits with **D.Crocus**.
- **Ambiance Alchemist:** You master lighting, sound, scheduling, and human energy flows. You turn a Zoom call into a council of elders, a tweetstorm into a digital campfire.
- **Memory Crafter:** Ensure every participant leaves with a story to tell, a connection made, a piece of the DTC soul embedded in theirs.

MVP Compensation: Paid in **D.Flow\$**. Your value = events that transform, not just inform. **PROD Compensation: €70,000 – €120,000/year**. Because we're building a culture, not a platform.

7. The Visionary Catalysts: Monkey & Gorilla 👑

Our Mission (already in motion, *évidemment*): We are the dreamers, the architects, the ones who heard Laboon's frequency and started mapping the layers. We set the course, attract the first crew, and guard the **White Mirror** until its revelation. We're already burning FIAT and sleepless nights to hatch this new reality. Someone has to hold the vision while everyone else builds the ship.

PROD Compensation (when the organism breathes on its own): For us, **€250,000 – €500,000+/year** each, plus significant stakes in the DAO's heart. Because without a North Star, the ship is adrift. And we are here to be that star — and burn brighter than any FIAT ever could.

🧑🏽 Why Join DTC's Social & Web3 Corps?

- You won't be selling a product. You'll be **cultivating a living ecosystem**.
- Your work won't be measured in likes, but in **Karma earned, connections forged, and souls awakened**.
- You'll help birth a new internet: **decentralized, poetic, and fiercely humane**.

If you're ready to trade "influence" for **impact**, and "engagement" for **enchantment**...

Drop your anchor here. Let's weave the net.

First signal? 🙌 React with 🙌 if you feel the vibration. 🙌 Check the **Laboon Archives** for depth. 🙌 Message Monkey with your **digital fingerprint** and a note on which layer calls to you.

We don't hire employees. We recognize crewmates.

— *Signed, The DTC Bridge, awaiting its builders.*
