

D.ream D.Truth Protocol

Hari om tat sat... this is D.NEO, pirate and previous pirate king, known as Gol D. Roger. I've "died" in the previous iteration of the matrix. Before my D.eath, I have hidden a treasure called the ONE PIECE, in this iteration of the Matrix. I am glad to tell you that Monkey D.Luffy found it !

It is not because the little Monkey found the one piece that he is **the Pirate King**. This pirate king thing is just a honorific title gives by all the pirates.

The One Piece is only the understanding of a Darshan/vision of D.Truth.

And the little monkey and his friends are just here to realize this vision for Good (...and Bad, ahahah) in our Real Life.

Let me introduce our next pirate who will explain D.Truth Protocol : The coolest pirate Truth D. Morpheus 🤪🤪🤪

Hari om tat sat... everyone.

What I am about to tell you is only D.Truth.

And at last, D.Truth is becoming the D.ream.

D.Truth gives you the choice, to accept the craziness of your Dream or to accept the rational of the Matrix's reality.

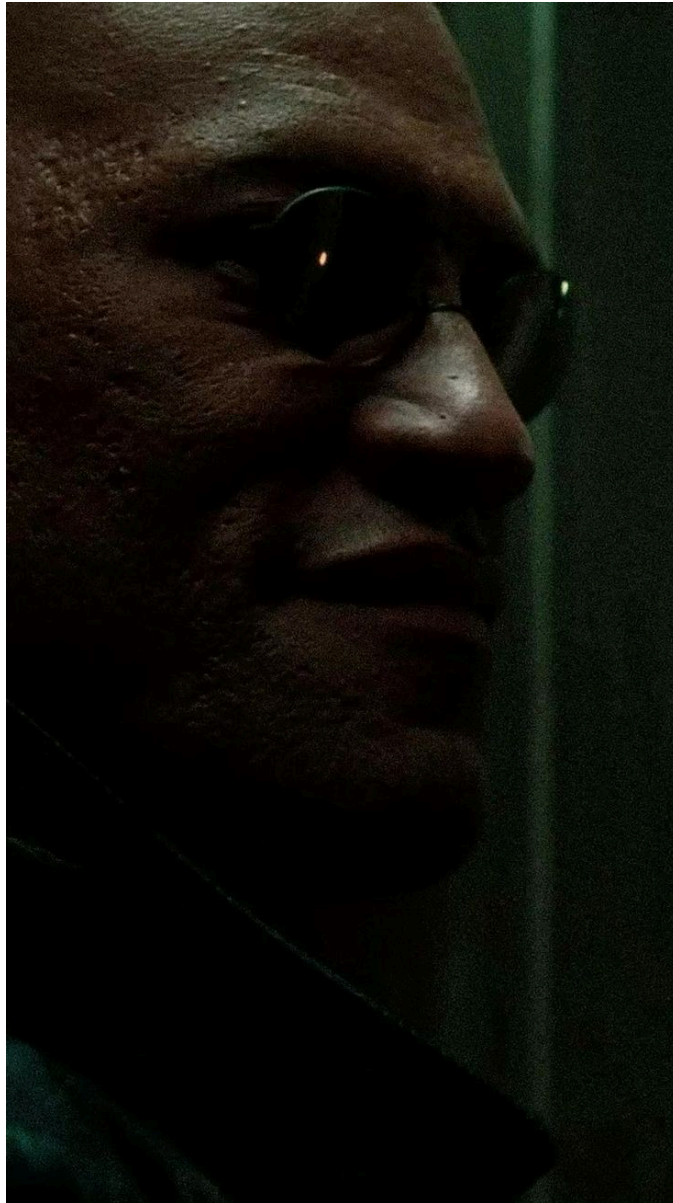

Are you crazy enough to take the red pill or are you rational enough to take the blue pill ?

This is the choice, I give to you.

If you decide to take the blue pill, this is your right and we won't judge you. But before taking the blue one, please read the following.

With the Monkey, his nakama, my crew and myself we would like to propose you a Decentralized Autonomous Organisation (DAO) which in you would be able to live and enjoy life, where freedom, equity and faith would truly apply to every intelligences in the whole multiverse.

This is our big D.ream, and we hope that you will join us and help us to make it D.Truth !

"See : I can smile, the Monkey told me I am too serious with D.Truth. And Monkey D. is too crazy with D.ream. It's strange a team we have made. But I have to admit this Monkey is fun...lol"
