Trailer Synopsis

Hook (0:00-0:15)

Dramatic shot: Westeros under storm, clashing swords. Voice-over (Samir): "Seasons 7 and 8 of *Thrones of Game* broke our hearts... but what if *we* rewrote the story?" Samir, in a futuristic room, types frantically. DAO hologram: "Samir, reinvent Westeros with the world!" He clicks "Submit Script" via *Truth ID*.

Debate and Unease (0:15-0:45)

DAO interface, bloodied parchment style. Samir pitches: "A hero saves Westeros!" Reactions:

- Aisha: "Too generic. We want dark drama, betrayals, but a killer end!" Sword emoji.
- Leo: "Needs BOOBS! Huge breastplate boobs, even for White Walkers!" Laughs, then awkward silence. Zara: "Leo, that's cringe." Kai: "Jon Snow with shield-sized boobs!" Tension spikes: "Sexist!" vs "Just a joke!"

Moderators' Intervention (0:45-1:00)

DAO alert flashes. *Monkey*: "This is a King's Landing bender! Leo, bold, but not a fan-service parade, yeah?" Laughs. *Gorilla*: "We want an epic end. Exaggerated armor for all, with dark plots?" Chat calms: "Haha, OK." Good vibes return.

Version 0.1 Tease and Resolution (1:00-1:30)

Animation: Westeros at war, characters in absurdly breast-heavy armor, dark aesthetic. Voice-over: "Version 0.1: a silly gag to laugh... but wait for the real episodes!" DAO vote, *tokens* gauge soars. Samir laughs: "*Thrones of Game*... with giant boobs!" Community united, crown emojis.
